The way camping should be... with friends that become family!

Good morning, Travelers,

Well spring has sprung and we are bathed with a gorgeous yellow haze on our pond. Not many years ago I would be sneezing, eyes watering and nose running with this type of weather. Local honey, used daily, has benefited me with my allergies and has been a welcome relief from all this pollen. Find a local beekeeper that does not process their honey.

We have our 20th anniversary approaching rapidly and Patt and I are looking forward to the rally. Meeting old friends and making new friends is a joy to us. We have lots of new friends to meet at this rally!

Make sure you get your rally fee to Jane so she can plan the meals and the entertainment.
